### Project Instructions

1. Cut a scallop heart from the Snowy Jo Snow Soiree paper, using the Rusty Pickle chipboard as a template and adhere this to the chipboard piece.
2. Cut two ½ inch (1.25 cm) strips from the Snowy Jo Santa's Secret Garden paper and from one of these make a paper bow and adhere to the lower part of the heart (green side of paper showing). Adhere the heart to the right of your background cardstock with your 6x4 photo tucked underneath
3. Take the 2<sup>nd</sup> strip of Snowy Jo Santa's Secret Garden paper and pleat occasionally using double sided tape at the rear to hold the pleats in place. Cut ribbon ends for the strip of paper and adhere below the photograph and under the heart (cream side showing).
4. Repeat the step above with a 3/8 inch (7mm) strip of Snow Soiree paper and a ½ inch (1.25cm) strip of Snowy Jo Cup O' Cheer paper so there are 2 strips of pleated paper beneath the photo each with ribbon ends and each different lengths slightly offset from each other.
5. Add the LOVE word from the rub-on sheet to the bottom right side of the heart and a tree cut from the Tinsel to the top paper.
6. Using a 1 inch circle punch (or cut by hand) punch a variety of circles from the Jingle Baubles paper and adhere randomly to the page, using foam pads to raise one now and then for dimension
7. For the title; Cut the three baubles, and the words "the", "Christmas" and "Holiday" from the Snowy Jo Cup O' Cheer paper and ink the edges of each in a coordinating colour. Write "May" on the 3 baubles and add a glittery border
8. Use letter stickers to create the word GIFT. Here we used Imaginisce Love Letter Stickers, which have been inked. This is a great way to change the colour of letter stickers to suit your layout.
9. Using each of the title elements prepared above together with Tiny alpha stickers place your title above your photograph (working in reverse from the photo upwards helps with placement)
10. Finally cut a couple of trees from the Cup O' Cheer paper and add to the page on foam pads and use clear gems to add detail where needed, such as the hats of the characters and in the snowflakes on the heart.
